

Compact Push-Pull Circular Connector

CONNECTOR

MB-0101-5

May 2018

JB5 Series

RoHS Compliant

Receptacle

Plug

The JB5 Series are small circular connectors, rated IP68 waterproof and a push-pull locking structure to enable easy mating and unmating. The connector series is offered with superior environmental durability and user-friendly designs that are ideal for various applications, such as, medical, measurement, and communication equipment, as well as handheld PCs, scanners and other small equipment.

Features

- Waterproof and dustproof rating: IP68 protection level (in mated condition and stand alone receptacle)
- Largest connector of series with 8 contacts is offered in a compact 14.8mm diameter shell (plug outer diameter: 11mm dia.)
- Push-pull locking structure enables easy one-handed mating and unmating
- Audible and tactile “click” confirms secure locking when mating
- Metal outer shell and ground terminal in the receptacle ensures excellent shielding
- Mis-mating can be visibly prevented with color variation of plug boots
- Durability: 5,000 cycles

General Specifications

Number of Contacts	3 pos.	4 pos.	5 pos.	6 pos.	8 pos.
Rated Current	3A per pos.			2A per pos.	
Rated Voltage	320VAC			200VAC	
Operating Temperature	-55 Deg. C to +85 Deg. C				
Water-proof	IP68 (in mated condition when mated and stand alone receptacle)				
Durability	5000 mating cycles				
Applicable Wire	22 AWG max.	24 AWG max.		28 AWG max.	
Applicable Cabtire Cable Diameter	Outer cable diameter: 4.5 to 5mm				

Materials and Finishes

Receptacle

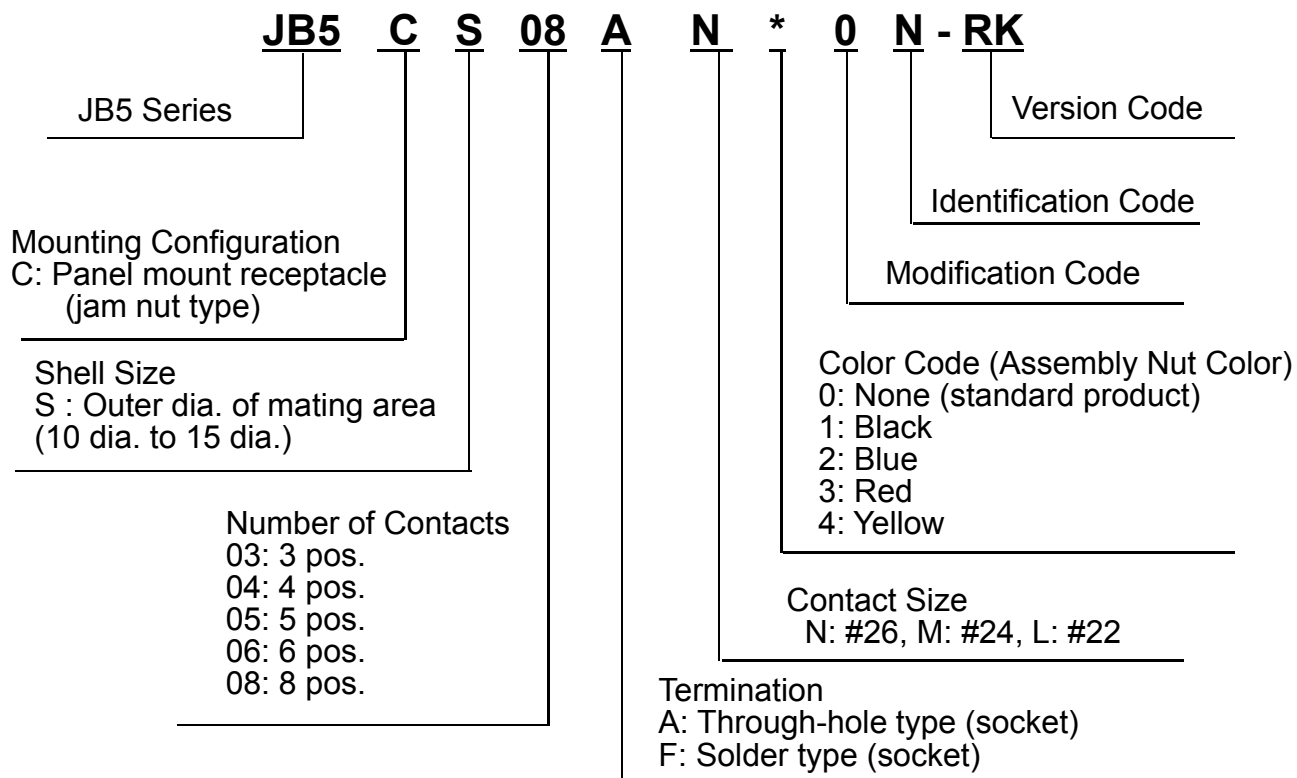

Component	Material / Finish
Socket Contact	Copper alloy / Au plating over Ni
Shell	Copper alloy / Chrome plating over Cu
Insulator	Glass filled nylon
Assembly Nut	Copper alloy / Chrome plating over Cu
Gasket	Silicone rubber
“O”Ring	Nitrile rubber
Ground Pin	Copper alloy / Sn plating
Dust Cap	EPDM rubber

Plug

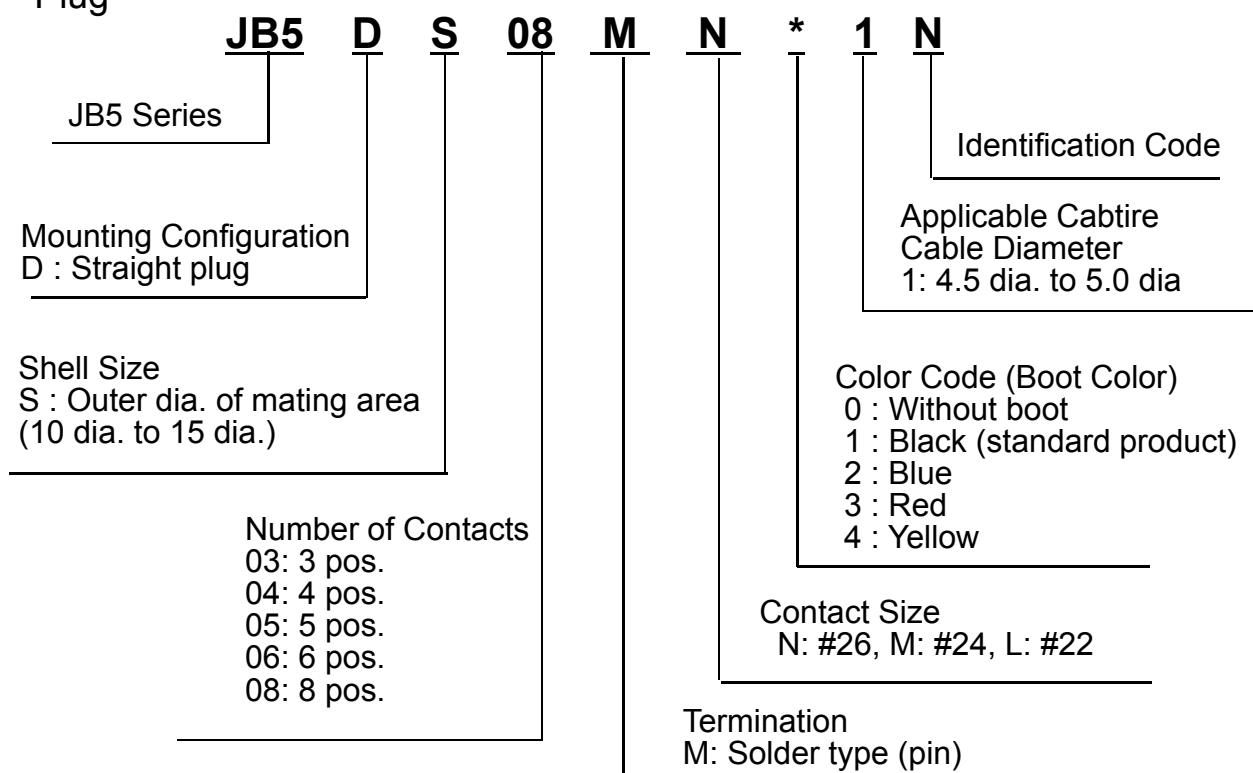

Component	Material / Finish
Pin Contact	Copper alloy / Au plating over Ni
Barrel	Zinc Alloy / Ni plating over Cu
Insulator	Glass filled nylon
Coupling Nut	Zinc Alloy / Chrome plating over Cu
Spacer	Copper alloy / Ni plating
Lock Spring	Copper alloy / Ni plating over Cu
Shield Sleeve	Copper alloy / Ni plating
Bushing	EPDM rubber
Ground Nut	Copper alloy / Chrome plating over Cu
Clamp	Copper alloy / Ni plating
Boot	Polyester elastomer
Outer Boot Clamp	Polyacetal

Outer boot clamp attached

Outer Clamp (attachment)

Usage

The outer boot clamp can be used to reinforce and prevent boot rising or disengagement caused by severe cable bending, etc.

The customer may use this depending on the usage and applications.

Note

Once the outer clamp is placed on the connector it cannot be removed.

Notice:

1. The values specified in this brochure are only for reference. The products and their specifications are subject to change without notice. Contact our sales staff for further information before considering or ordering any of our products. For purchase, a product specification must be agreed upon.

2. Users are requested to provide protection circuits and redundancy circuits to ensure safety of the equipment, and sufficiently review the suitability of JAE's products to the equipment.

3. The products presented in this brochure are designed for the uses recommended below.

We strongly suggest you contact our sales staff when considering use of any of the products in any other way than the recommended applications or for a specific use that requires an extremely high reliability.

(1) Applications that require consultation:

(i) Please contact us if you are considering use involving a quality assurance program that you specify or that is peculiar to the industry, such as:

Automotive electrical components, train control, telecommunications devices (mainline), traffic light control, electric power, combustion control, fire prevention or security systems, disaster prevention equipment, etc.

(ii) We may separately give you our support with a quality assurance program that you specify, when you think of a use such as :

Aviation or space equipment, submarine repeaters, nuclear power control systems, medical equipment for life support, etc.

(2) Recommended applications include:

Computers, office appliances, telecommunications devices (terminals, mobile units), measuring equipment, audiovisual equipment, home electric appliances, factory automation equipment, etc.
